## International Congress for Joint Reconstruction Donates \$40,000 To Further Orthopaedic Education and Research

(San Diego) - The International Congress for Joint Reconstruction (ICJR) announces philanthropic donations to The Hip Society, The Knee Society, AAHKS, and OREF.

These donations, \$5,000 each for a total of \$20,000, will continue the mission of ICJR and help support these organizations commitment to education. ICJR contributed \$20,000 to the same organizations in 2010. Previously this year, ICJR contributed \$2,000 to the Mid-America Orthopaedic Association (MAOA) through its educational collaboration at the MAOA Annual Meeting, held April 5-8, 2011 in Tucson, AZ.

"ICJR, with these donations over the last two years, is delighted to be able to support its mission by giving back to the orthopaedic community", notes W. Norman Scott, MD, FACS, and President of ICJR.

With special recognition ICJR would like to thank Dr. Michael Mont and the Hip Joint Course, in conjunction with Mt. Sinai Hospital in Baltimore, for his generous donation to ICJR.

"A special thanks to those who have supported ICJR as we continue to rapidly grow our educational platform and the operations to support it" stated W. Norman Scott, MD.
